International Business — Exchange Year
Darla Moore School of Business · University of South Carolina, USA

LANGUAGES

Spanish — Native
English — C1 Advanced

> **"A business profile with the ability to build with AI. Not one or the other — both."**

EXPERIENCE

Sales Executive — Remarketing Account Manager
Nov 2024 – Present

Enterprise Mobility · Galicia, Asturias and León

- Full ownership of the Galicia region: 70 active accounts per year, 66 of them opened by me, and over 800 units sold, growing steadily.
- B2B portfolio segmentation, ranking accounts by purchase history, potential and account type.
- Built my own AI tooling (n8n, Claude API) to automate sales analysis and account prioritisation.

Branch Manager
Mar 2022 – Nov 2024

Enterprise Mobility · Bilbao Airport

- Branch at Spain's 5th busiest airport by traffic volume: a team of over 30 and the P&L.
- 12% increase in ancillary product revenue through purchase-behaviour analysis and team coaching.
- 85% of customers rated the branch 10 out of 10, sustained over time.
- Process redesign down to root cause: the parking handover was being skipped because the tablets had no signal there; I arranged wifi installation with AENA, the airport operator, and retrained the team to restore it.

Assistant Manager
Aug 2020 – Mar 2022

Enterprise Mobility · Madrid

- Operational coordination across multiple branches, meeting service and profitability targets.
- KPI analysis and identification of operational and commercial improvements.

Sales Assistant
May 2019 – Aug 2020

Enterprise Mobility · Madrid

- Customer service, contract management and ancillary product sales.

Administrative Assistant
Jul 2017 – Apr 2018

Ferrovial Agroman · Valladolid

- Bookkeeping, invoicing, contracts and supplier relations.

PERSONAL PROJECTS

AIntegrax aintegrax.com

Automation and AI consultancy for small and mid-sized companies. I find the opportunities, design the workflows and deliver solutions that work.

EligeFactura eligefactura.es

Tells each freelancer which invoicing software they need to meet Verifactu. Opportunity spotted in the regulatory change and launched on an affiliate model.

OpoTrack oposiciones-webapp.vercel.app

Study-tracking app for civil service exams, built for a real user. Sessions, notes per topic, daily goals and motivational messages.
